

Stevenage Premier League Darts Rules

League Games will be best of 11 legs, nearest the bull to determine who throws first, only 25 and bull count, exactly the same as vaults

The first player named will throw for the bull first

Who wins the bull off will also have 1st throw if the game goes 5-5, there will be no second bull off

We will be using the n01 program on tablets

There will be no third-party scorers; players will score their own games, Player 1 scores while player 2 throws and then player 2 scores while player 1 throws.

The above is being done as nobody will want to chalk potentially 11 legs and then have to play straight after, this will be done on trust and I would like to think with the 16 players involved, we all respect each other enough not to try and cheat.

At the end of the game, please take a photo of the tablet screen, including player averages, and submit it to the Premier League WhatsApp group.

3 Points for a win

1 Point for a 6-5 loss

0 Points for any other loss

16 Players

15 Weeks

Each player plays 2 games per week

Each player plays all other players twice

Each game is best of 11 legs

After 15 Weeks players would have played 30 Games, at this point the top 8 qualify for finals week (week 16)

In the event of tied positions in the table the following will be used to confirm positions
